# REINCLEAN DISINFECTANT FOR CANNABIS CULTIVATION

# REINCLEAN DISINFECTANT FOR CANNABIS CULTIVATION

A cutting-edge solution designed specifically for cannabis cultivation. With Hypochlorous Acid (HOCl) as its active ingredient, REINCLEAN DISINFECTANT is an organic, biodegradable, and non-toxic disinfectant that ensures the highest standards of cleanliness and safety throughout the entire cannabis growing process.

## 01 **Broad-Spectrum Antimicrobial Action**

**Kills Harmful Germs:** Effectively eliminates pathogenic bacteria and fungi that can threaten cannabis crops.

## 02 **Safety and Ease of Use**

**No PPE Required:** Safe to use without the need for personal protective equipment.

**Non-Toxic and Biodegradable:** Environmentally friendly, making it ideal for sustainable cannabis cultivation.

## 03 **Plant Health and Maintenance**

**Effective Against Powdery Mildew:** A reliable solution for treating and preventing powdery mildew infestations.

**Promotes Cell Repair:** Can be applied directly to plants during cutting or pruning to aid in cell repair and overall plant health.

## 04 **Versatile Application**

**Grow Rooms and Equipment:** Perfect for disinfecting grow rooms, equipment, and irrigation lines.

**Fogging Agent:** Can be used in fogging systems to ensure comprehensive coverage.

**Bud Washing:** Leaves no harmful residue, making it perfect for bud washing to maintain the purity of your product.

## 05 **No Harmful Residues**

**No Post Rinse Needed:** Simplifies the cleaning process by not requiring a rinse after application.

**Removes Odors and Biofilm:** Effectively removes bad odors and biofilm, ensuring a clean growing environment.
