

REINAGRI

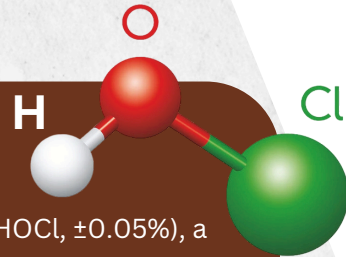

REINCLEAN

GENERAL DISINFECTANT SOLUTION

Discover the Power of Nature in Disinfection.

Germs are everywhere, often hidden from view yet posing significant health risks. These invisible culprits—commonly known as germs—are the primary causes of infections and diseases. They include bacteria, viruses, fungi, molds, spores, cysts, and more.

The Science Behind Our Solution

The active ingredient in REINAGRI GENERAL DISINFECTANT is Hypochlorous Acid (HOCl , $\pm 0.05\%$), a naturally occurring substance that mimics the infection-fighting properties of our immune system.

HOCl effectively destroys a wide range of germs, including:

Bacteria | Viruses | Fungi | Spores | Cysts

Benefits of REINAGRI GENERAL DISINFECTANT

Non-Toxic and Safe: Our solution is eco-friendly, biodegradable, non-irritant, and non-toxic, making it safe for use in all environments, from households to industrial settings.

Effective Deodorization: By eliminating odor-causing germs, it ensures your spaces not only look clean but smell fresh too.

Resistance-Free Disinfection: Unlike some disinfectants, germs cannot develop resistance to HOCl , ensuring continuous effectiveness.

Versatile Application: Ideal for disinfecting equipment and surfaces in various settings, including homes, offices, and industrial areas.

EMBRACE A HEALTHIER, CLEANER ENVIRONMENT
